

A4
SUMMARY OF THE INVENTION

Please replace the section title located after the last paragraph on the second page with the following:

A5
BRIEF DESCRIPTION OF THE DRAWINGS

Please replace the following section title located before the first complete paragraph on the third page with the following:

A6
DETAILED DESCRIPTION OF THE INVENTION

IN THE CLAIMS:

Please amend the claims in "clean" form as follows:

- A7
GROSS
"FOOT" "HOLE"
1. (Amended) A safety visor produced by etching of metal, comprising a grid that defines a large number of light-permeating holes, the holes being of different areas, the holes being of different configuration, at least two zones with a same area of the holes within the zones, the areas of the holes being different in different zones.
 2. (Amended) The safety visor as claimed in Claim 1, further comprising an upper central zone with greater light transmission than the remaining zones.
 3. (Amended) The safety visor as claimed in Claim 1, further comprising an upper central zone, an intermediate zone located around the upper central zone and a lower edge zone located around the intermediate zone; wherein a light transmission in the upper central zone is greater than in the intermediate zone, and a light transmission in the intermediate zone is greater than in the edge zone.
 4. (Amended) The safety visor as claimed in Claim 1, wherein the holes have a same C-C spacing in a lateral direction regardless of a location of the holes.
 5. (Amended) The safety visor as claimed in Claim 1, wherein the holes have a same C-C spacing in a vertical direction regardless of a location of the holes.

6. (Amended) The safety visor as claimed in Claim 1, wherein the holes are hexagonal with two approximately parallel sides longer than remaining sides, the parallel sides being directed in a vertical direction.
